EDUCATION

BACHELOR'S DEGREE @ BEIHANG UNIVERSITY, CHINA — 2019-2023

- Majoring in Computer Science and Technology, achieved CGPA of 3.62.
- Awarded a scholarship by the Beihang University four years in a row.

EXPERIENCES

SOFTWARE DEVELOPER @ GETRIGHT DIGITAL — FEB 2023-PRESENT

- Implemented core modules for **ANSA**, an insurance and fintech super app, using **React Native with Expo** for **iOS** and **Android**. Delivered features supporting quotation requests, payments, policy management, claims, and financial services for insurance, investments, and remittances.
- Played a key role in developing the **Sime Darby Property App** in **React Native** for **iOS** and **Android**. Delivered features for **property owners** (progress billing, construction updates, document access, defect reporting, key handover) and **public users** (mall directory, promotions, vouchers, events) to enhance convenience and engagement.
- Contributed to the development and enhancement of **Skillsture**, a cross-platform livestream training platform for **Web**, **iOS**, and **Android**, using **React, Flutter, MongoDB, Express**. Integrated **Stripe API** for payments and **Zoom SDK** for livestreaming, enhancing interactivity and user experience.

FULL STACK DEVELOPER INTERN @ FUSIONETA — AUG 2022-JAN 2023

- Assisted in the development and ongoing maintenance of codebases for **Altomate** and multiple other projects, leveraging modern technologies such as **React, Angular, Express, Google Cloud** to deliver scalable and efficient solutions.
- Designed and built a **CI/CD pipeline** using **GitHub Actions and Google Firebase**, automating build and deployment processes across multiple environments for **Altomate** and other projects, improving development efficiency and reliability.

SKILLS

PROGRAMMING LANGUAGES

JavaScript, TypeScript, HTML, CSS, Dart, Python

LIBRARIES & FRAMEWORKS

React, Next.js, Tailwind CSS, Angular, React Native, Flutter, Node.js, Express, Hono, GraphQL

CLOUD & DATABASES

AWS, Google Cloud, Heroku, Firebase, MongoDB, MySQL, PostgreSQL

DEVOPS & TOOLS

GitHub, GitLab, Docker, Postman, Figma, Bitrix24

PROJECTS

TECHCONCEPT — FULL STACK DEVELOPER — JUN 2023-PRESENT

Spearheaded the development of **TechConcept**, an e-commerce platform integrating seamlessly with **CommercePay, Fiuu, and Payex** for secure payments. Implemented an intuitive admin dashboard with advanced user role management, including a clock-in/out and leave system for precise employee tracking. The platform also features dynamic content management for updates and user-friendly shopping features, contributing to an enhanced overall user experience. **(React, Firebase, Node.js, Express, Google Cloud & Maps Platform)**

SECONDS BOOTH — FULL STACK DEVELOPER — DEC 2023-MAR 2024

Contributed to the development of **Seconds Booth**, leveraging **React, Express, and AWS Lambda**. Integrated **iPay88** for seamless QR code payments, enhancing the efficiency of the pre-payment process for users engaging with the photo booth services. **(React, AWS Lambda, Node.js, Express)**

NGT MOBILE — FLUTTER APP DEVELOPER — NOV 2023-DEC 2023

Led the development of the NGT Mobile, a mobile application for both **iOS** and **Android** built with **Flutter**. Implemented a personalized login screen and seamlessly integrated an in-app web view for direct access to web portal services. Elevated user experience with a customized network error screen and integrated Firebase for efficient push notification services, ensuring timely updates and heightened user engagement. **(Flutter, Firebase)**
